[What's this?](#)

*There is about a 2-4 week delay in the data for a jurisdiction to confirm a case of SARS-CoV-2 pregnant woman and report it to CDC.

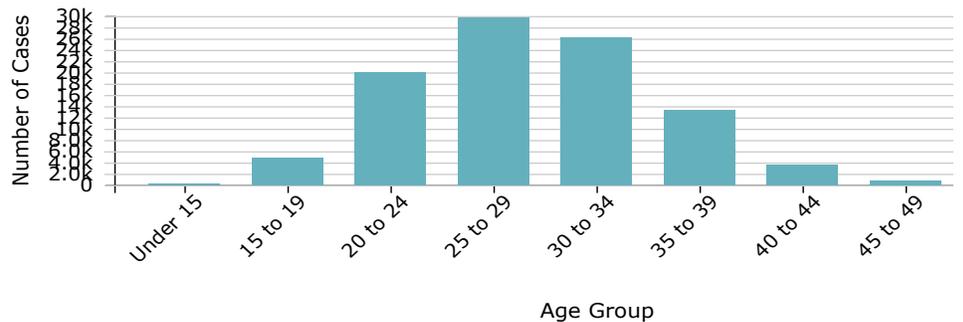

**Date of diagnosis is derived from the earliest date of either 1) when the case report was received by CDC from a jurisdictional health department or 2) the earliest available date related to the specimen collection.

Do

Pregnant women with COVID-19 by age, United States, January 22, 2020 - 2021

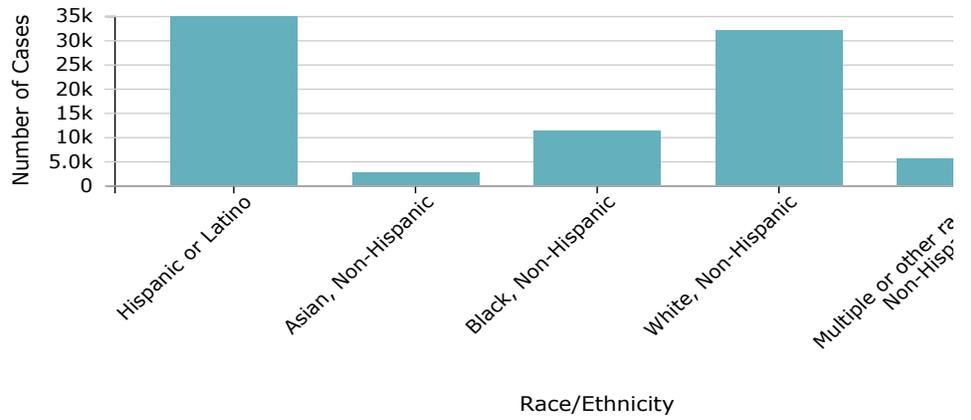

Data were collected from 99,535 women, and age was available for 99,535 (100%) women.

Do

Pregnant women with COVID-19 by race/ethnicity, United States, January 22, 2020 - July 5, 2021

Data were collected from 99,535 women, but race/ethnicity was only available for 86,226 (86.5%) women.

De

Pregnant Women with COVID-19 who were hospitalized, United States, 22, 2020 - July 5, 2021

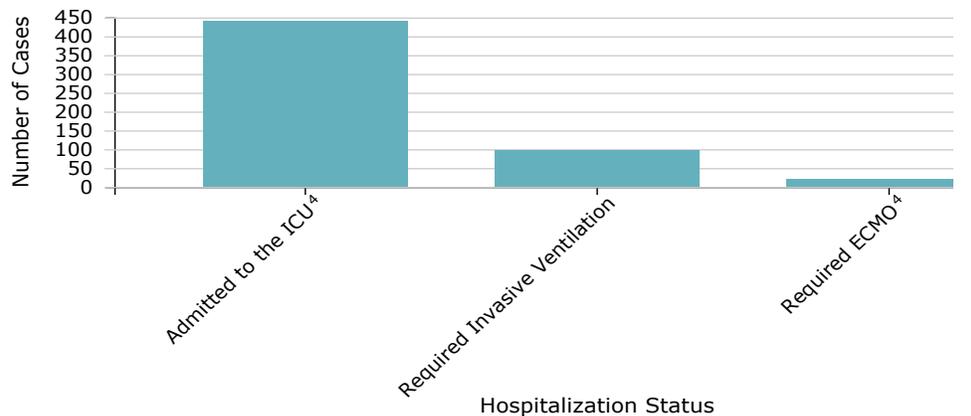

Data were collected from 99,535 women, but hospitalization data were only available for 79

HOSPITALIZED CASES³

17,040

Pregnant women with COVID-19 admitted to the ICU, who required invasive ventilation, or who required ECMO, United States, January 22, 2020 - Ju

Data were collected from 99,535 women, but ICU admission data were only available for 13 women, invasive ventilation data were only available for 9,411 (9.5%) women, and ECMO data available for 9,998 (10%).

¹ Cases with age <9 years and >54 years are excluded. Cases with unknown age are included.

² Other race includes non-Hispanic American Indian or Alaska Native or non-Hispanic Native Hawaiian or Other Pacific Islander

³ Data were not available to distinguish hospitalization for COVID-19-related indications, such as worsening respiratory status, from

admission for pregnancy-related indications, such as delivery.

⁴Abbreviation: ICU, intensive care unit; ECMO, extracorporeal membrane oxygenation, an advanced life support technique used for threatening heart and/or lung problems.

Footnotes

This webpage is updated weekly. The cases reported include only confirmed cases with laboratory evidence of infection.

About the Data:

There are currently 56 U.S.-affiliated jurisdictions reporting cases of COVID-19 to CDC. This includes 50 states, District of Columbia, Guam, New York City, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands. Only some case report forms include information on pregnancy status. Therefore, these numbers likely do not include all pregnant women with COVID-19 in the U.S. and must be interpreted with caution. The completeness of the pregnancy data continues to improve each week. Increases in the total number of cases of COVID-19 among pregnant women are due to the updating of pregnancy status among already reported cases. Case numbers reported on other websites may differ from what is posted on CDC's website because CDC's overall case numbers are validated through a confirmation process at each jurisdiction. Differences between reporting jurisdictions and CDC's website may occur due to the timing of website updates. The process used for finding and confirming cases reported by other sites may differ. Case counts fluctuate from week to week due to data quality and cleaning processes.

Since October 2020, CDC has excluded reports of cases of COVID-19 among pregnant women who are younger than 9 and older than 54 in the weekly reporting. Based on review of data quality, cases reported as pregnant with an age less than 9 or older than 54 are less likely to be true pregnancies, and more likely to be data errors. Cases with unknown age are still included.

For more information on how CDC collects COVID-19 surveillance data, see [FAQ COVID-19 Data and Surveillance](#).

For surveillance data on birth and infant outcomes from the Surveillance for Emerging Threats to Mothers and Network (SET-NET) see [COVID-19 during Pregnancy: Birth and Infant Outcomes](#).

Looking for data on birth and infant outcomes among pregnant women with COVID-19?

Visit CDC's Birth and Infant Outcomes data page for information on delivery type, preterm birth, and infant test results.

Want to learn more about COVID-19 risk for pregnant women who are breastfeeding?
